

Asphalt Zipper®

**ROADBASE
RECLAIMER**

AZ-500B

173 / 203 / 260 hp Models

THE POWER TO GET THE JOB DONE FAST WITH HIGH QUALITY LONG LASTING ROAD REPAIRS

The AZ-500B harnesses the power and productivity of much larger self-propelled reclaimers & stabilisers into a very powerful, versatile and affordable loader attachment. Powered by a John Deere or Cummins intercooled turbo-diesel engine, the AZ-500B will pulverize up to 300mm in a single pass with productivity up to **1000 m² / hr.** Heavy patches, full width road repairs, base stabilisation, gravel roads and opening utility trenches in asphalt are just a few of its many uses.

Cost savings of 50% and higher quality repairs stretches your budget further.

HIRE MACHINES NOW AVAILABLE !!!
